## DETAILED ACTION

### *Drawings*

1. The drawings were received on May 26, 2005. These drawings are acceptable.

### *Allowable Subject Matter*

2. The indicated allowability of claims 1-18 is withdrawn in view of the U.S. Application No. 10/667,771. Rejections based on the newly cited reference(s) follow.

### *Double Patenting*

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1-18 provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1-18 of copending Application No. 10/667,771. Although the conflicting claims are not identical, they are not patentably distinct from each other because of the following reasons:

Although the claimed language of the instant application, as claimed in claims 1-18, is not identical word for word to that of the copending U.S. Application No. 10/667,771, the scope the claimed invention of the instant application is sufficiently similar to claims 1-18 of the copending U.S. Application No. 10/667,771. Therefore, the conflicting claims are not patentably distinct from each other.

Art Unit: 2823

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure Igarashi et al. (US/6,720,209) also disclose similar inventive subject matter.
